Hydra/Hercules 20/20 Display

"My 20/20 shows no Heading Information"

- The 20/20 shows Heading title but no Heading Information is displayed.

To correct this, you need to go to the FFD and hold down the page button and scroll through until the desired 20/20 display starts to flash then page up until Navigate is shown then press enter.

Page up again until Heading is shown and press enter. This should now show the Heading data on the 20/20 display, press the Page button to exit the FFD page control.
